FROM THE CHAMBER

Welcome to Sebring

On behalf of the Greater Sebring Chamber of Commerce, we would like to welcome you to Sebring, Florida! Whether you are here to work, live, or play, Sebring offers something for everyone's lifestyle and pace.

Now more than ever, we see so many looking to escape the hustle and bustle of "big city living" and our location continues to be a hot spot in Central Florida. After all, it's hard to pass up a location that has the convenience of proximity and amenities, while maintaining a much lower cost of living compared to other Florida cities. Others just appreciate the friendly locals who enjoy one another's company and give down-home service with a touch of southern hospitality.

Looking for things to do? We have plenty to keep you busy! Sebring is home to a dozen award-winning golf courses that won't break the bank and over 100 lakes to enjoy fishing, boating and water sports. One of the most attractive things about Sebring and Highlands County is the natural beauty. A location that is a must to visit is the legendary Highlands Hammock State park, one of the oldest in Florida.

So, if you are looking to slow down, relax, unwind, and escape the traffic jams, you have found the right place! Look forward to living the stress-free Florida lifestyle in Sebring!

About the Chamber

GREATER SEBRING CHAMBER OF COMMERCE:

"The Voice of the Business Community Since 1914"

The mission of the Greater Sebring Chamber of Commerce is to serve the economic, educational, governmental and social interests of the people, organizations and communities it represents while fostering a prosperous and harmonious environment in which to live, learn and work.

We help facilitate these efforts by connecting local businesses, non-profit organizations and citizens in the Greater Sebring area. We provide members with the opportunity to promote and grow their business through a variety of networking events. We are a reliable source of community and business information and the Chamber is home to the largest Welcome Center in the county.

CREATING A STRONG LOCAL ECONOMY

The Sebring Chamber encourages a strong local economy by connecting you with the right resources that your business needs to succeed. We have strong relationships and serve as a liaison to the Small Business Development Center (SBDC), Highlands County Economic Development (EDC), Sebring Community Redevelopment Agency (CRA), Highlands County Tourist Development Council (TDC), and more. We also get you connected with your state legislators through our annual Legislative Luncheon, where they come to meet business owners face-to-face, update us on any important pieces of legislation coming down the pipeline, and more.

PROMOTING THE COMMUNITY

At the Sebring Chamber, OUR business is promoting YOUR business. That's why we offer complimentary ribbon cuttings and grand opening ceremonies to any member of the Chamber. We also use our weekly newsletter to spread the word about what's going on at your organization and send it to our 1000+ email contacts. We also publish this Area Guide each year to keep new residents in tune with our community and to connect them with our members.

LAMPE & KIEFER
HEARING AID CENTER, INC.
"Your Ear Care Connection"

**It is not only about your hearing... it is about
your overall health and well being.**

We promise to provide you with outstanding customer care and state-of-the-art hearing instruments to help you hear better. Satisfaction with your new hearing instruments is our top priority. We will guide you through the important steps to improve your hearing and get you back to your daily life.

Choosing a hearing professional is one of the most important decisions a hearing impaired person can make. Since a hearing aid cannot be prescribed like eye glasses, proper hearing aid recommendation and fitting is highly dependent on the judgment and skill of the professional selecting the instrument. We test your hearing, and select and dispense the hearing instrument best to meet your needs, in addition to providing support counseling and service of the hearing system. We are concerned about you and we want to make hearing solution recommendations to fit your lifestyle and personal needs.

Rich in History

Did you know that Sebring is one of the few surviving circular cities in the United States? Completed in 1912, it is also the oldest circular city in Florida and the only one that uses a circle for its primary commercial district? Where did George Sebring get the idea for Sebring's Circle?

Most people think that he adopted the idea from a magazine illustration of Heliopolis, an ancient Egyptian city. A WPA Federal Writer's Project, Allen and Joan Morris' Florida Handbook, published biennially from 1947 through 2011, Florida Backroads Travel, and some of our local websites set forth this view.

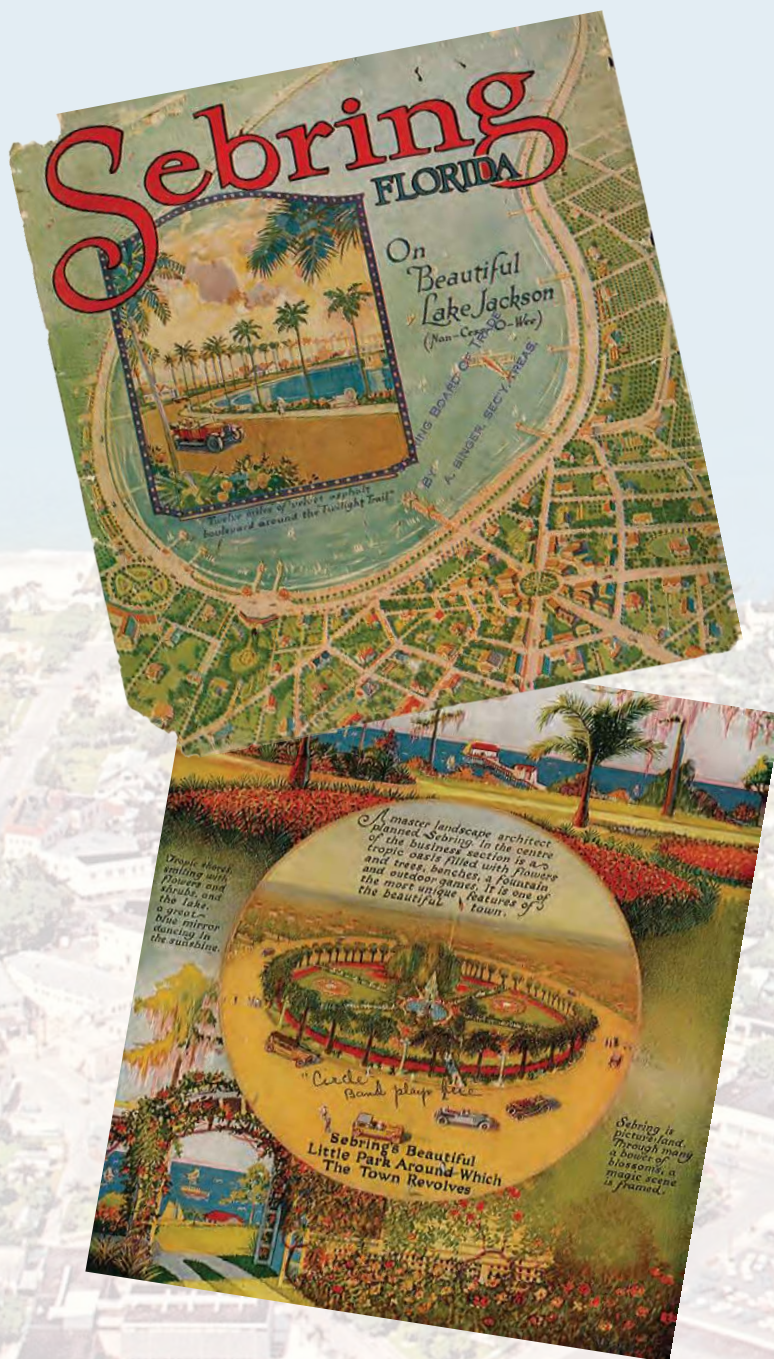

But in his book, *Sebring: City on the Circle*, author Stephen Olausen presents other theories. In the late 19th and early 20th centuries, a movement was underway in the United States to break the monotony of standard grid patterns in city planning and to incorporate green space into development. The Circle fits the goals of this movement with its circular park surrounded by a drive from which six avenues radiate.

Furthermore, in an early Sebring Real Estate Company brochure, Mr. Sebring states "the town is laid out somewhat after the manner of Washington cities and Indianapolis with a circle in the center and broad avenues running out from it like spokes from a hub". Mr. Sebring also no doubt was influenced by his native Ohio roots. The Ohio Valley region has the greatest profusion of circular towns in the United States, including Circleville, Ohio, platted in 1810 from it like spokes from a hub.

Story provided by the Sebring Historical Society.

Circle Park in Sebring has historically served as the focus for Sebring's social activities, and in earlier days, political gatherings, and religious services. Today, the Circle is home to many community events and festivals, including the Sebring Soda Festival, the Sebring Art's & Craft's Festival, the Rotary Club's Chili Cook Off, and more.

Sebring's Circle has received official recognition for its significance as a contributing element within the Sebring Historic District. The District was listed in the National Register of Historic Places in 1989.

Primary & Secondary Schools

The Highlands County school district encourages and supports excellence in education. The district offers a Kindergarten Learning Center, elementary, middle and high schools, along with community and adult education. Advanced classes are available at all grade levels.

Sebring High School offers the International Baccalaureate (IB) programme, dual enrollment with the local state college, and Advanced Placement (AP) coursework to allow students to earn college credits while enrolled in high school.

Highlands County high school students also can work toward a career while completing their high school studies at the Highlands Career Institute at South Florida State College (SFSC). The Career Institute is an entire learning experience on the SFSC Highlands Campus. Students attend high school classes taught by high school instructors during one half of the day. During the other half of the day, students attend college level classes alongside other college students.

Private Schools

If a private education is preferred, students may attend Heartland Christian Academy or St. Catherine Catholic School, both located in downtown Sebring.

Higher Education

South Florida State College (SFSC) is a comprehensive, open-access, higher education institution dedicated to providing a student-centered environment focused on learning and personal enrichment through quality programs and services. At its campuses in DeSoto, Hardee, and Highlands counties and through its online presence, the College offers certificates, associate degrees, and bachelor's degrees that lead to the continued success of its graduates and a variety of opportunities for the educational, cultural, and economic advancement of the service district.

The College offers three bachelor's degrees: Elementary Education, Supervision and Management, and Nursing. The Bachelor of Science in Nursing is offered fully online, as well as the Bachelor of Applied Science in Supervision and Management. The Bachelor of Science in Elementary Education gives students hands-on experience in the classroom and graduates teachers who work in the local K-12 system.

Through its Adult Education Department, the College offers developmental courses to learn English, obtain a high school diploma, or strengthen skills in math, reading, and writing. SFSC provides customized training for the workforce at its campus locations and off-site at local businesses through its Corporate and Community Education Department. Non-credit courses are also available for leisure and enrichment. The annual Heartland Senior Games and the Lifetime Learners Institute allow the community to participate both physically and intellectually in areas of interest.

SFSC is one of the 28 institutions of the Florida College System and it has articulation agreements with several Florida universities to provide a seamless transition for SFSC graduates who obtain an associate degree to transfer to a bachelor's degree program within the state.

Racing Roots:

From Runways to Raceway

Sebring International Raceway

Sebring International Raceway

America's oldest and most prestigious road racing track originated from Hendricks Field, a WWII military air base that trained B-17 combat crews. When the base closed in 1946 it was turned over to the City of Sebring for use as an airport and industrial park.

Aviation entrepreneur and sports car enthusiast Alec Ulmann promoted the first race at Sebring on Dec. 31, 1950. The track utilized airport runways and access roads within the former military base. Sports car racing at Sebring grew rapidly and the annual 12-hour endurance classic became known internationally. The world's top drivers and manufacturers competed at Sebring every year, attracting thousands of fans and world-wide media coverage.

Legendary drivers such as Mario Andretti, A.J. Foyt and Dan Gurney have won at Sebring, driving cars built by Ferrari, Porsche, Jaguar, Ford, BMW, Chevrolet, Nissan, Toyota and many other manufacturers. Steve McQueen and Paul Newman are just two of the many celebrities who have competed at Sebring.

The track has evolved dramatically over the years, with constant improvements to the facility. Located adjacent to Sebring Regional Airport, Sebring International Raceway is busy all year with testing, club events, racing schools and other events.

The Mobil 1 Twelve Hours of Sebring, held annually every March, was recently voted the #1 Motorsports Event in North America by readers of USA Today. Sebring International Raceway is proud of this important recognition and welcomes the many race fans who visit Sebring and Highlands County every year.
