Highlands County Citrus Growers  
**President's Column** by Emma Ezell

Hello again fellow growers,  
It's my birthday from last month I thought summer time was here, it has now officially arrived. School is  
out for summer! It is almost like an instant happiness has fallen over the land. I am not as worried about last  
time, maybe one a weeknight staple, poolside bathers on an acceptable level of cleanliness, and popovers,  
well, they can in fact be a breakfast food. We are only a week in, so things can change, but for now I'm just  
going to roll with it. Thank you folks for the continued support with the summer activities and activities. I am told that  
nap times are a non-negotiable part of the routine though!

I am thankful for the monthly tests that I get to remind me to write this letter. It gives me a moment to reflect on what  
is going on around me and look for inspiration from the everyday. Sometimes that at my desk and other times I'm  
in the field, occasionally I remember after a Sunday afternoon nap, but most of the time I am near family. If you've  
been reading along these past few months, you might have seen a pattern that I take a lot of inspiration from my  
family. Mom, Dad and his antics, but it's still inspirational to me and my reminder that I may perhaps be an inspiration  
to someone else. I don't know I have had my share of things I look up to along the way and I could not have done  
it without their support. Some of you are probably reading this letter and I'm sorry I haven't told you as much as I  
should, but thank you for inspiring me, even in the mundane tedious work of the everyday!

While the summer time does seem to slow things down, I think it is important to note that the work does not stop.  
I have attended a few meetings lately where it occurred to me that those facilitating and/or participating were more  
often than not growers as well.

Another inspirational quote we have around our office is "Go the best you can, at the time, with  
what you have." It can apply to a lot of facets of life, but I have been thinking about our local  
long journey with Citrus. We are by all means not where we want to be in the battle, but  
I believe those growers serving on boards, committees, or research organizations etc.,  
were and along the way they could, at the time, with the information they had.

It is not always easy to attend the ongoing meetings or read countless studies or  
understand the complicated issues, but let us take a moment and be thankful that  
someone has done that, even if we don't always like or agree with the decisions  
that were made.

There is still work to be done for sure, so let us all be part of the solution, not  
part of the problem. There are many layers, and of late an onion if I was going  
to quote movies with a certain green eyes in them and I'm thankful that some  
are taking their time, and perhaps their summers to help in keeping citrus moving  
forward!

Now let's go have an orange popical  
Cheers, citrus and best wishes,  
Emma Ezell

### Who Uses Document Preparers?

For a document preparer to use Florida practice is a matter of their rightness.

### FLORIDA REQUIREMENTS:

The court process does not have to be thought of as an impossible task anymore. For us (self-represented) could be the way for you to go. We are not lawyers, we are a document preparation service designed for the person who wishes to represent him or herself in court proceedings. We cannot by law tell you what your rights or remedies are. We can assist you with and prepare all the required court documents you will need to make your pathway through the court system as smooth as possible. We guide you through the court process, making your job as self-represented as easy and painless as possible. From there, all you do is submit the documents to the Clerk of Court and pay the filing fee. Once filed, you will receive a notice of your hearing date, which you may or may not have to attend depending on your particular legal situation.
