Are Glory days of sportscar racing back?
Not unlike any other sport that views itself as a global entity, including golf, baseball and more recently basketball, stakeholders of various sportscar sanctioning bodies, individual team owners, drivers and promoters have worked for decades to find a common platform where the world's best sportscar teams and drivers can compete on a level playing field. All sports are complicated, but motorsports set the standard in complexity given constantly evolving technology. Golf has always had common rules established by the R&A and the USGA. The rim in basketball is always 10 feet off the ground and there are five players per side no matter the country in which you're playing. The bases in baseball

Ralph Stivala, Eagle Scout
In an impressive ceremony on September 18 the Eagle Scout Court of Honor was held to honor Ralph Stivala. Ralph's journey to attain this achievement was chronicled during a ceremony at Union Congregational Church and then displayed at a reception afterwards.
The crowd of family and supporters then traveled to the HHEAL site to see his final project; a shelter and Sure-Hands lift system for our mounting area. Ralph's efforts included not only the design and construction, but all the fund raising as well.
Congratulations Ralph; HHEAL is both honored and thankful to have been the recipient of your talent, and the contribution to our program is priceless!

METAL ROOFING PRODUCTS
Gulf Coast Supply Achieves One Year Zero OSHA-Recordable Record
SEBRING, FLA. (October 21, 2021) – Gulf Coast Supply & Manufacturing ("Gulf Coast Supply"), the trusted name for metal roofing for 25 years, recently celebrated a safety milestone as the company's Sebring location passed the one-year mark without a recordable incident. This safety achievement spanned both 2020 and 2021.
"Achieving zero harm every day is our goal. Working for the last year with zero OSHA recordable injuries means our employees are working safely. We want our people to go home the same way they came in," said Shawn Kirk, Vice President of Operations.
The Occupational Safety and Health Administration (OSHA) defines a recordable as any work-related injury or illness that requires medical treatment beyond first aid or results in loss of consciousness, days away from work, restricted work or transfer to another job.
Gulf Coast Supply President Harry Yeatman said, "The safety of all Gulf Coast associates is the first thing I think about each day and the last thing I think about at the end of each day. Zero harm is not impossible; it takes dedication and focus to achieve. Good job, Sebring!"
The Sebring location is Gulf Coast's flagship facility and is home to more than 50 employees including manufacturing, logistics, administrative, and sales. More than 20 million feet of metal is produced at the facility annually.
###
Gulf Coast Supply & Manufacturing is the trusted name in metal roofing and provides the best value in product availability, fast and reliable service, and expertise. Serving all of the Southeast, Gulf Coast Supply offers metal roofing products with eight profiles in over 30 colors. Gulf Coast Supply is headquartered in Jonesville, Fla., and has four manufacturing facilities throughout the Southeast. For more information, visit www.GulfCoastSupply.com.

Dr. Raoul Boughton began studying feral hogs at Buck Island Ranch eight years ago to better understand the ecology of these abundant mammals in Florida grazing lands. Funded by the USDA, Boughton and his team deployed 44 motion-triggered camera traps throughout the ranch beginning in 2015. They also tracked hog movements with GPS collars. This trove of data created an opportunity for Sriram Narasimhan, a summer intern in Archbold's Predator-Prey Program. Advised by Joe Guthrie, Predator-Prey Program Director, and Boughton, Narasimhan knew from prior diet studies that feral hogs loved acorns. For his study, he explored whether hogs prefer oak hammocks over wetlands and irrigation ditches using camera trap data and by measuring the surrounding habitat. And, he asked if the association with oak hammocks increased with oak acorn production during fall and winter. Camera traps confirmed more feral hogs in oak hammocks, but there was no clear increase in use compared to wetlands or ditches. Feral hog presence in oak hammocks did increase during the fall and winter oak acorn mast. Watch Narasimhan's research presented here. Narasimhan confirmed passive monitoring of wildlife with camera traps provides inexpensive, long-term, and high-quality information.

SHOW US YOUR SOCKS SHOWDOWN 2021

At Ridge Area Arc we understand that individuality is the spice of life and even the most conservative dressers can get a little crazy on their feet. That is why we are hosting our Show Us Your Socks Showdown to raise awareness for individuals with intellectual and developmental disabilities. During the month of **November** we are asking business employees to donate a dollar (more is okay too) and wear their favorite pair of crazy socks; ones that truly fit their personality. Ridge Area Arc employees will be traveling around town looking for the craziest socks out there and collect monies raised. We will be splashing you and your company all over our social media platforms so everyone will know that you support individuals with intellectual and developmental disabilities. You can also send us your photos or videos of you, your family, friends and co-workers. We encourage participants to challenge other companies and friends to join in on the fun. Tag Ridge Area Arc and use the hashtags #Sockchallenge2021 #RAArc. It's all in good fun for a great cause.
